

These periods of time are known as **prehistory**

Only objects, burials and monuments tell us about life at that time

Bronze Age

defined by the technology to make metal
copper + tin = bronze

technology

- metal tools and jewellery made from bronze
- bone and stone tools still used
- looms invented to weave material
- cloth woven to make clothes

people

- Beaker people arrived
- migrated from mainland Europe
- clans ruled by chieftains

places

- metal production increased
- copper and tin mines dug
- villages by rivers
- Stonehenge – iconic religious stone circles

culture

- round barrows
- stone circles
- Stonehenge - important religious site

At the same time but in a different place

The Ancient Egyptian civilisation was thriving with enormous cities and inspiring temples.

trade

people started to swap items, such as metal, pots and jewellery

transport

sturdy boats could travel across the sea to trade

Amesbury Archer

archaeologists found Beaker pots, arrowheads, boar tusks, copper knives, jewellery and a cushion stone
