MRS MANNING'S MESSAGE

Dear Parents and Carers,

We are thrilled to welcome everyone back and to say what a fantastic start to the new school year it has been! The school has been buzzing with energy, excitement, and some truly magical learning experiences.

☀ Reception – Settling in Beautifully

Our new Reception children have made a wonderful start. They've settled into school life incredibly well – exploring their new environment, making new friends, and already beginning their learning journeys with curiosity and confidence. We are so proud of how well they've adapted to their new routines.

🏠 Year 4's Hogwarts Immersive Day

Year 4 stepped into the world of Harry Potter for a magical day at Hogwarts! Dressed as their favourite characters, the children were sorted into houses in the Great Hall and took part in a variety of spellbinding activities. It was a truly immersive experience that brought the magic of reading to life!

🚀 Science Comes Alive for Years 3 and 5

We were also delighted to kick off our science topics with a visit from the Explorer Dome. Year 5 blasted off into space and explored the wonders of the universe in an exciting and interactive session. Year 3 got hands-on with forces, investigating pushes, pulls, and motion in a fun and engaging way.

These experiences have sparked lots of enthusiasm and curiosity, and we can't wait to see where our learning takes us next!

Thank you, as always, for your continued support. We're looking forward to a brilliant term ahead!

NEWS AND UPDATES:

Our new Reception children have now completed their first full week in school. They have settled in brilliantly and had fun making new friends, playing in the classroom and exploring the outdoor area. They have already shown our HEART values of respect and engagement, and we are delighted to welcome them to Team Trinity.

TRINITY NEWS

NEWS AND UPDATES:

In our KSI reading assembly, we enjoyed the story *The Koala Who Could* (by Rachel Bright and Jim Field) and thought about how Kevin the koala had to be brave when things around him began to change. Just like Kevin, we are learning that new classes, teachers and routines can feel a little bit different at first, but they can also be exciting! The children shared how having a positive attitude, being ready to try new things, and showing ambition helps us all to settle in happily. We're leaping into our new school year with confidence and smiles! (Miss Bowen, Year 1)

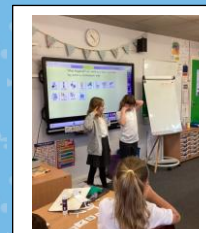

This week, I read "I Don't Want to Go to School!", a story about a little boy named Martin, who is convinced that staying at home would be much more fun than going to school. However, Martin quickly discovers that home isn't nearly as exciting as he imagined. When he finally makes his way to school, he ends up having the most wonderful day, making new friends and discovering all sorts of exciting things to learn. It's a lovely reminder for our children, especially as they settle into new routines and get to know their new class, that school is a place full of friendship, fun, and opportunities to grow. (Mr. Walker Y5)

NEWS AND UPDATES:

Year 4 have been very busy following their exciting Harry Potter Day. Inspired by the famous wizard himself, the children stepped into Harry's shoes and imagined what it might have been like to experience the magical moments of his early adventures. Through acting, discussion and vocabulary gathering, the children are now well-prepared to write diary entries filled with magic and mischief!

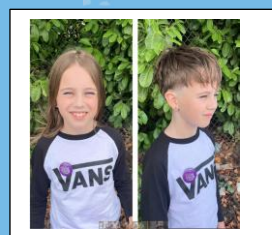

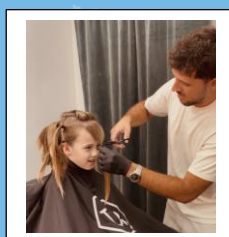

Last Friday, Billy, in year 5 had all his hair cut off for The Little Princess Trust, and in doing so he donated 14" of hair and raised an amazing £1414.00 for the charity! What an incredible act of kindness and generosity. This selfless gesture will help provide real hair wigs to children and young people who have lost their hair due to cancer treatment or other conditions. We couldn't be prouder and a fantastic HEART ambassador for the school.

Billy Bruce is going for the hair chop!

£1,414 raised
£14K target - 80 donations

Year 6 had an enlightening time in their science topic this week. . .

One battery. One piece of wire. One bulb.

How many ways can you make the bulb light up? Clue - it is more than you think!
