MRS MANNING'S MESSAGE

Dear Parents and Carers,

What a wonderfully busy week it has been. Despite the chilly weather, our children have stayed warm, engaged and full of enthusiasm as they've taken part in a range of exciting learning opportunities.

Road Safety Week – Assembly Led by Year 6
We began the week with a special whole-school focus as our Year 6 School Council confidently led assemblies for both KS1 and KS2 to mark the start of Road Safety Week. They shared important messages about staying safe near roads, being visible in the dark winter months, and making sensible choices when walking or cycling. We are incredibly proud of their leadership and the mature way they presented such an important topic.

Year 2 Maths Workshops

Our Year 2 children were delighted to welcome parents and carers into their classrooms for our Maths Workshops. It was fantastic to see families exploring "maths in action", working alongside pupils to solve problems, play games and share strategies. Thank you to everyone who attended – your support makes such a difference to the children's confidence and enjoyment of learning.

Christmas Jumper Re-sale – Thank you for your Christmas jumper donations today. Don't forget, next Friday 28th will be our re-sale event – come along and grab a festive bargain.

ATTENDANCE

EYFS	95%
Year 1	97%
Year 2	96%
Year 3	96%
Year 4	99%
Year 5	95%
Year 6	99%
Whole school	96%

HOUSE POINTS

Raglan 488

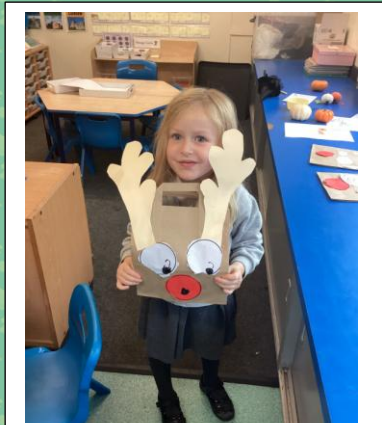

Ludlow 551

Goodrich 559

Chepstow 565

NEWS AND UPDATES:

Reception have been busy making reindeer gift bags to sell at the school Christmas Fair on Friday 5th December. They used their amazing fine motor skills to cut and stick eyes, a red nose and antlers. They are really pleased with their finished bags and can't wait to sell them at the Christmas Fair.

TRINITY NEWS

NEWS AND UPDATES: OPAL

Isn't it fantastic that our fabulous Trinity children have been able to enjoy the crisp, cold weather on playground or field this week? The pupils have been making the most of the wet ground in digging, sliding and exploring together and we've awarded the highly prized Golden Welly to another batch of heroes for showing our HEART values at lunchtime.

Please keep OPAL donations coming in – a particular request for any digging tools, utensils, pots and pans for our muddy areas.

NEWS AND UPDATES:

We are Heart Surgeons! Year 6 have been investigating what blood is made of – and even creating their own versions to use in filmed presentations for younger children.

We also now know why some blood looks darker than others... just ask us! 🩸

Year 4 are learning about electricity in science, and they have had a lot of fun creating circuits to make light bulbs shine and buzzers

buzz. Linked to this, they are learning about the scientist and inventor Nikola Tesla who invented machines which used electricity and are the foundations of many of the electrical things we use every day.

Year 1 had a great time exploring sliding mechanisms yesterday. The children showed wonderful creativity as they designed and built their own sliding creations. They approached every step with curiosity, enthusiasm and resilience! 🤖🛠️🧠😊
