TRINITY NEWS

MRS MANNING'S MESSAGE

Dear parents & carers,

What a wonderful first full week back at school we have had! It has been fantastic to see how well the children have settled into their new classes and how positively they have embraced the start of the new academic year.

The children have shown great engagement and enthusiasm for their learning, enjoying opportunities to consolidate and build on their prior knowledge, whilst embracing the challenge of extending their learning further and exploring exciting new topics. It has been lovely to see their curiosity, confidence and enjoyment in learning already.

This half term, our Trinity Value is Health. We will be focusing on what it means to look after our physical and mental health, make positive choices and understand how healthy habits help us to feel our best and achieve our potential. We look forward to sharing some of the ways we will be developing this value with the children over the coming weeks.

Thank you, as always, for your continued support in helping us make such a positive start to the new school year.

Our House captains will begin counting house points next week – watch this space!

NEWS AND UPDATES: EYES

Reception have completed their first full week in school. This week they have had great fun exploring and playing in the outdoor area and having their lunch in the hall. They have all been absolute super stars, learning and following the routines. We are so proud of our youngest learners and the start they have made to their Trinity journey.

TRINITY NEWS

NEWS AND UPDATES:

It's been great to see Trinity children enjoying our first full week of OPAL in style! A special well done to our Golden Welly winners for showing their HEART values in play this week – Leo and Tilly in Year 6 helping younger children and taking care of equipment and, Jess, Nala and Veronica getting stuck in with some seriously fun shared dance play!

Thanks to those of you donated or who took advantage of the Welly swap this week – please don't hesitate to donate more wellies (or anything else) at any point to make sure our OPAL is available to all pupils, all year!

NEWS AND UPDATES:

Year 3 have made an exciting start to their new Stone Age topic this week! To begin developing their understanding of chronology, the children worked together to create a **human timeline on the playground**. They enjoyed positioning themselves in the correct order and discussing how far apart different periods of history were. They then took their learning back into the classroom, where the children worked independently to sequence key events from the past on their own timelines.

Year 1 have been busy exploring their sense of touch in science this week. The children enjoyed taking part in a sensory walk, using their hands and fingers to explore a variety of different textures and surfaces. They talked about how each texture felt and used descriptive vocabulary to explain their observations. The children also had lots of fun playing the **feely bag game**, using only their sense of touch to investigate and identify hidden objects. They made predictions about what they could feel and discussed which features helped them to work out what the objects were.
